Journey through India

From the mangroves of the Sunderbans to the Thar Desert, sizzling cities like Mumbai and Delhi to the scintillating villages of Khajuraho and Hampi, from the heights of the Himalayas to the deep blue waters around the Andamans. India is where people live with variety and thrive on diversity.

With its long and rich history, India retains many outstanding archaeological landmarks like the Buddhist remains at Sarnath, Sanchi, and Bodh Gaya; the cave temples at Ajanta, Ellora, and Elephanta and the temple sites at Madurai, Thanjavur, Mt. Abu, Bhubaneswar, Konarak, and Mahabalipuram.

At its southern tip is Kanyakumari and in the north, is the Himalayan mountain wall, where rise the three great rivers of the Indian subcontinent: the Indus, the Ganges, and the Brahmaputra.

The Gangetic alluvial plain, which has much of India's arable land, lies between the Himalayas and the dissected plateau occupying most of peninsular India. The Aravalli range, a ragged hill belt, extends from the borders of Gujarat in the southwest to the fringes of Delhi in the north.

The Narmada River, south of the Vindhya hills, marks the beginning of the Deccan. The triangular plateau, scarped by the mountains of the Eastern Ghats and Western Ghats, is drained by the Godavari, Krishna, and Kaveri rivers; they break through the Eastern Ghats and, flowing east into the Bay of Bengal, form broad deltas on the wide Coromandel Coast. The much narrower western coast of peninsular India, comprising chiefly the Malabar Coast and the fertile Gujarat plain, bends around the Gulf of Khambat in the north to the Kathiawar and Kachchh peninsulas. The coastal plains of peninsular India have a tropical, humid climate.

India is the land to travel to, a heaven of tourism delights, a civilization to tour through. This is a tour package with overwhelming warmth of its people, ease of conversation, and to be stunned into speechlessness by the beauty of nature.
